The chargeable amount of CIL is calculated on the gross internal area of the net increase in floor area. Indexation

The CIL Regulations specify that the index to be used is the —National All-in Tender Price Index published from time to time by the Building Cost Information Service (BCIS) of the Royal Institution of Chartered Surveyors; and the figure for a given year is the figure for 1st November of the preceding year. In the event that the All-in Tender Price Index ceases to be published, the index to use will be The Retail Prices Index.
