Subject: Preferred Option Consultation -Policy W1B

This representation is from the Coventry Society. The Coventry Society is a registered charity and civic society campaigning for a quality Coventry for the benefit of the community.

Though the Coventry Stadium, Brandon, is located in Rugby Borough Council's administrative area, locationally it has a strong affinity and long association with the City and its residents as a much loved and iconic motorsports venue. The stadium is integral to the heritage and cultural life of the City having provided family-orientated spectator motorsports over the decades, and drawing in visitors locally, regionally, nationally and internationally. The restoration of the venue will meet the aims and objectives of the Society which, amongst other things, seek to sustain and improve leisure, sports and cultural facilities available for the enjoyment of its citizens.

The Coventry Society therefore **strongly supports** the inclusion of policy W1B in the Local Plan, which seeks the restoration of Coventry Stadium, Brandon, for the purposes of speedway, stock car racing, other motorsports and community uses as a protected community facility.
