Subject: Waste collections - local plan

Hi

I would like to highlight the importance of ensuring that waste collection services are fully considered as part of the local plan. As housing development continues to grow across the borough, the current waste depot and fleet are nearing capacity. To maintain effective service delivery, it is essential that future planning includes adequate capital provision for expanding both our vehicle fleet and depot infrastructure. Without this forward planning, our ability to meet the demands of a growing population will be compromised.

Thank you
