I object against this proposed windfarm site citing Section 15 of the National Planning Policy which focuses on conserving and enhancing the natural environment and would draw your attention to the points below which go against this;

- Visual Impact**: The installation of wind turbines in such close proximity to residential areas will significantly alter the landscape and may detract from the natural beauty of our surroundings, affecting property values and the quality of life for residents.
- Noise Pollution**: Wind turbines can produce noise that may be disruptive, particularly during quiet hours. This could lead to disturbances for families, especially those with young children or elderly members.
- Wildlife Disruption**: The proposed site is home to various wildlife species including protected Great Crested Newts, short eared owls, deer, swans, geese and ducks who regularly fly across the area and use the brook that spans the land. I have personally seen all of the mentioned wildlife. The construction and operation of a wind farm could disrupt their natural habitats, leading to potential ecological imbalances and potentially endanger their lives.
- Community Engagement**: It appears that the community has not been adequately consulted regarding this project. Residents deserve a say in developments that will affect their homes and livelihoods. I urge you to reconsider the implications of this wind farm on our community and to explore alternative locations that would minimize disruption and still contribute to our renewable energy goals. Locally around the A5 corridor there is plentiful scope to site these wind turbines.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

This plan has not been positively prepared and has not justified it's proposed location and the visual impact it will have on the area. The council has not displayed it's duty to cooperate with local residents for their views and has certainly not provided evidence that it has liaised with relevant wildlife protection groups concerning the protected species that live on the land.

Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

No, I do not wish to participate in hearing session(s)

Yes, I wish to participate in hearing session(s)

Please note that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.

9. If you have used AI to produce or substantially alter your representation, please declare which tool you have used, how it was used, and what checks you have undertaken to ensure the AI-produced material is accurate.
