Good Afternoon,

I am delighted to see the enthusiasm to repair and renovate the historic Coventry Stadium to facilitate the return of both Stock Car racing and Speedway. For Stock Cars it is their Wembley stadium, for Speedway the loss of the Bees was catastrophic for this world famous team. The are of Brandon looks so sad with the stadium in its current condition and was the soul of the area. It clearly as has been proven that the site is not suitable for housing. The publish desire is for Stcock cars and Speedway. I really hope to be back at Coventry Stadium soon to watch both.

Kind Regards

Steve Barlow
