Dear Sirs

Thank you for your recent email with regards to the local plan for RBC - Regulation 19 Consultation. I am writing to give my support to the reinstatement of Coventry Stadium Brandon, and for the return of Stock Car Racing and Speedway. I first started spectating at Brandon in April 1968, and saw over 400 Stock Car meetings there until its sudden and premature closure nearly 10 years ago. I also raced a Formula One and a Formula Two Stock Car at my local track.

The loss of this venue has hit not only the local community, but the whole nation, and in fact other parts of the World too. It was "the meeting place" for fans of Motorsport, especially Stock Car racing on the first Saturday of the month. I am so desperate to see racing returned the "The Old Lady" that I would volunteer to help with the clearing up of the area and to allow the track and racing recommence.

I am fully in support of the restoration of Coventry Stadium, and that planning permission will not be granted for development proposals which would conflict these objectives.

Kind Regards

Stuart Biddle
