**Subject:** 'Proposed Submission Consultation Coventry Stadium

Good Afternoon,

I would just like it on record that I would love a positive response in favour of Coventry Stadium being rebuilt.

Coventry has long been associated as the Motor City of the UK and how better than enabling the stadium to become yet again the "Wembley " of the short track racing world, me and my family and many thousands are awaiting the return to racing, please please enable the consortium to be allowed that chance to regenerate and give the area something to be proud of again.

Thank you for reading this plea.

Regards

Andrew and Alison Brown
