Dear Rugby Council, Development Strategy Team,

We submitted a similar email as below, to you last year. As it says everything we feel the need to say, we're sending a very similar version again on this occasion.

We would like to add our support to the case for Coventry stock car and speedway stadium to be brought back into use.

My husband had been going to the Coventry stadium regularly since 1983 . It took him 3 hours to drive there but he thought the journey was well worth it as It was his favourite stock car stadium.

He was absolutely devastated when it closed and has sorely missed it since.

I went with him a few times and could totally feel the atmosphere that he felt there so I completely empathised with him when it was closed down.

He used to go there with a friend, our son and his partner. A full car every time! They all miss it.

We know many other people who really want it back!

Please bring it back!

Janet Carr and Philip Rowbotham
