Dear Planning Team,

I am writing in strong support of Proposal for Policy W1b and to strongly urge that Brandon Stadium be saved from development and instead reopened for Speedway, Stock Car racing, and other community-focused activities.

This venue is part of our cultural and sporting heritage. It has the potential to serve not just motorsport fans, but the wider community with events and uses that bring people together. It would be a great loss to let it slip away when it could once again thrive as a vibrant and inclusive local facility.

I am very confident if Brandon stadium was to be granted permission to reopen its doors, it would attract huge attraction and have a positive impact on the city of Coventry. I feel as recent years have passed Coventry is slowly losing more and more of its culture and I feel when Brandon stadium did close late 2016 it did come as a great loss to the community. Having spoken to several residents in the local area to the stadium it seems even they have been disheartened by the closure of the stadium.

This stadium wasn't just a place to watch sport, there is more meaning to it. A community grew within the stadium grounds, friendships and relationships blossomed. I spent my childhood watching events here and would love to spend my adulthood doing the same.

Kind regards,
Danielle Durran
