Good Evening,

I have tried to work my way through the representation form, but sadly I found it too tricky to fill out, I'm guessing this may be for a reason, so as to put people off having their say.

I am a busy working mum of 2 children, and I find myself finding the time at this late hour trying to put a stop to this barbaric proposal to disfigure our beautiful home, so I haven't got the time to sit and work out the form, however, I would still like to be heard.

I live on the Coventry rd in Brinklow and currently there is already an issue with traffic within the village. Cars constantly braking the 30mph speed limit and driving dangerously, now you are going to be bringing more traffic and hazards onto our roads. Have you ever tried turning out of broad street onto the Coventry rd at rush hour? Now you are adding another busy junction almost opposite that junction off of Brays close, it's going to be even harder to get in and out of the village.

We already have issues with our sewers, what will happen when over 300 homes are added?

The revel school? Doctor's surgery? How will they cope?

Wildlife is going to be destroyed. When are we going to prioritise countryside over developments? It is sickening to see the surrounding area torn apart for the ridiculous HS2 development, now the government is intent on destroying more. Why can't existing redundant sites be developed instead? The speedway in Binley woods? The cemex office block in rugby to name just 2 wasted spaces.

We have an historical landmark in Brinklow, we should be protecting it's heritage and not over develop the surrounding area.

I truly worry about the future for my children. If this development goes ahead, I will most definitely not be voting for the current government. The Labour Party and the Liberal Democrat's need to listen to the people's needs. You are destroying our country, our village, our home, our community, our future.

Yours hopefully,

Amanda England,
