Good morning

I am a resident currently living in the lovely village of [REDACTED]. I would like to raise my objections to the above due to the below points:

- [REDACTED] is a small and quiet village, which is why we moved here in the first place, not for it to be filled with over a hundred houses.
- The proposed development is due to be built on a natural reservation habitat, which is full of beautiful birds and wildlife, how can you logically think this is a sensible and ecological decision?
- Our little village shop would have to close, which has been there for over 15 years, family run and a central hub for our small village community.
- you will take away beautiful green belt countryside land, build more roads and the village will become twice as big, the roads will be far busier, the wildlife will go and it will no longer be a small, quiet rural village.
- People's properties will go down considerably in value, which is completely unfair to the current residents.
- It is morally and ecologically wrong!

Our village is a small rural community, where families can walk, spend time together, enjoy the quiet. We DO NOT want it to become a busy, noisy town full of building works and for our wildlife to leave. Please take this a written objection to the above outrageous proposals from Rugby Borough Council.

Save our Wolvey and save our Wildlife!

Yours sincerely

Elizabeth Evans
