Good morning

Having been born in Binley Woods in [REDACTED] Brandon Speedway has been a big part of my childhood & teenage years and adult life as going to watch as child and after leaving school working part time at stock car meetings and going to watch the speedway also.

In later years being part of a Sidecar speedway team that considered Brandon there home track.

Being at Brandon on the last night the track was running the crowd was around 2000 people so why the owners said it was not viable is a big surprise.

The Stadium was considered to be the best track for Bikes & cars it's like Wembley and Silverstone Anfield all rolled into one for speedway & stock car fans.

We need it back ASAP.

Regards

Mr Kevin Golby
