To Rugby District Council

I urge you to approve the local plan for submission to the Secretary of State for approval.

It is most important for the Brandon Speedway/Stock Car stadium to be retained for those sports and more, and for any additional planning requests from Brandon Estates to be repelled.

I urge the council to do all they can to assist the reinstatement of the stadium to it's former glory.

The stadium was and should once again be an important historic location for both sports.

Regards

Neil Grantham
