Subject: Proposed Submission Consultation - Policy W1B

I would like to add my support to the aims to restore Coventry Stadium in Brandon to something resembling its previous status as a motor sports stadium, particularly for speedway racing. I attended a number of speedway meetings at the venue in the past as a visitor from Norwich (a city which has not had a track for over 60 years now), and would like to see a reversal of the regular situation of developers riding roughshod over any legal restrictions to take over speedway facilities - most recently Peterborough, Swindon and Birmingham and, I suspect, a number of others. With so many other speedway tracks lost to this country in the last 20 years or so, it would be particularly positive to see a flagship stadium like this returned to the sport, as it may well provide some encouragement for others attempting to battle against the odds to restore other venues currently lost to the sport.
