Subject: local Plan Proposal of policy W1B

Dear Sir/Madam

I am writing in support of the councils designation of Brandon as a significant motor sports venue in the emerging local plan.
Proposal of Policy W1B..

I had been attending Speedway at Brandon since 1978 (since I was 16 years old) continually I never missed an home meeting. My brothers started me on this long love affair with Coventry Bees (when it was on a Saturday if I had a wedding to go to I used to come out of the wedding to attend the speedway meeting then go back to the wedding nothing would stop me from attending) I followed the Bees home and away I have watched League racing and international meetings at Brandon in all them years. Some of the international meetings were sell outs we used to have to get there at least three hours before and it would take us hours to get out of the car park (but we did not care that we had to wait because we had watched speedway)

I do miss going to Brandon as it was a major part of my life it was also a place to meet different people some that you only saw at the Speedway

The site has a unique place in motorsport history it as stood on that site proudly and there is no alternative venue to provide such entertainment within the Warwickshire/West Midlands catchment area.

Please bring Brandon Stadium back to life and I support the movement to bring motor sports and other activities back to the Stadium and let the future generation enjoy what we enjoyed before we had to vacate the Stadium.

Thank you

Karen Ismay (a dedicated Coventry Bees Supporter)
