If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

Policy S1, Settlement Hierarchy, is Not Justified and unsound for the following reasons:

- Supporting evidence does not justify Wolvey being where it is in the hierarchy
- The Rugby Urban Area should accommodate the majority of new growth not the less well-served and remote rural areas.
- The 'Main Rural Settlements' definition is not sound as Wolvey is the smallest and least well-served of all the Rural Villages yet has the third highest housing allocation.
- Wolvey has limited employment, services, facilities, and public transport.
- Wolvey is a small remote village unable to accommodate the level of growth proposed.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

- Wolvey should have no large developments and should be in a lower category in the hierarchy because of its limited services, facilities, employment and public transport.
- Wolvey is unable to accommodate the level of growth proposed as it is a small remote village. Therefore, it should be in a lower category in the hierarchy and have no large developments.
- Site 309 should be removed from the local plan

(Continue on a separate sheet /expand box if necessary)

Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

Policy S2, Strategy for Homes, is Not Justified and Unsound for the following reasons:

- Policy S2 is not sound because it is forming an unsustainable pattern of development in rural areas that is not 'justified' by the evidence.
- The Strategy for Homes has an overall preferred strategy of Urban Concentration. Policy S2 is in contradiction of this and proposes nearly 58% of new allocations (over and above those in previous Local Plans and already with permission) in the rural areas.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

Policy S5 is not sound or justified and is not consistent with National Policy for the following reasons:

- The Draft Local Plan seeks to allocate around 1,500 new homes on land that is currently established Green Belt. This does not 'protect' Green Belt.
- There are development options outside of the Green Belt in more suitable locations that should be explored first.
- The Council's evidence is contrived and written to identify large areas of Green Belt as 'Grey belt' even though it is well established green belt. Previously these areas were established to safeguard the countryside from encroachment and should not be defined incorrectly

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. The local plan should be adjusted to reflect the following:

- Allocations and designations should follow the National Planning Policy Framework and only allow changes to the Green Belt in exceptional cases. Development around Wolvey is cannot be considered an exceptional case as development is not needed.

Policy S6, Residential Allocations, is Not Justified or Sound and it is not consistent with National Policy.

Land north of B4109 Wolvey (Site 309), should not be allocated for housing for the reasons below:

- 150 new homes are of a disproportionate scale with the current village.
- The proposed allocation is within the Green Belt and this is contrary to Government Policy.
- Previous landscape studies have indicated that the land has 'High sensitivity to housing development'. It is therefore not suitable.
- Part of the site is adjacent and next to a Local Wildlife Site. There has not been a sufficient assessment of the ecological impacts.
- 150 homes (and up to 210 homes if Site 358 is included) is too much for Wolvey's current infrastructure in terms of limitations of primary school places, travel to secondary school, GP practice, employment, shops and the very limited public transport availability.
- The Council's own Sustainability Appraisal indicates that "Wolvey is a notably small main rural settlement with a low settlement score".

- Alternative sites should be considered in strategically preferable locations such as adjacent to the urban areas of Rugby and / or Coventry.

Policy CL1, Net Zero Buildings is Not Justified or sound and it is not consistent with National Policy.

- The Climate change section of the emerging Local Plan is not justified or sound because it is not consistent with the National Planning Policy Framework.
- Under Policy CL1 the Plan should address the 'location' of development to ensure that new housing seeks to maximise walking and cycling (the most sustainable modes of travel) alongside good access to public transport in accordance with the National Planning Policy Framework. Wolvey does not meet these criteria and car travel is essential for daily life.

Policy EN2, Landscape Protection is Not Justified, or Sound and is not consistent with National Policy:

- Allocations proposed in the emerging Local Plan do not reflect the available evidence in terms of impacts on the landscape.
- Previously the land North of B4109 Wolvey (Site 309) was indicated to have "high sensitivity to housing development" in terms of landscape. The change is not justified.
- Site 309 would extend the village of Wolvey into the Anker Valley and have a large impact on the landscape and character of the village.

Policy I4, Infrastructure and planning obligations, is Not Justified, Not Sound and is not consistent with National Policy for the following reasons:

- The available infrastructure cannot support the scale of development proposed for the village of Wolvey.
- There are insufficient primary school places to accommodate another potential 70 pupils.
- There are no secondary or special education needs school in Wolvey requiring long journeys to larger urban areas such as Rugby or Coventry.
- The GP practice is only open on limited days (and only for part of the day) requiring long journeys to other available practices.
- The local shop is not suitable for a weekly family shop requiring long journeys to urban areas such as Coventry.
- Public transport is poor
- There is no dentist, chemist or hospital requiring long journeys to urban areas such as Rugby or Coventry

There are no plans to increase facilities and it is unlikely that new developments would lead to increased facilities.

The proposals for Site 309, land North of B4019, Wolvey, are Not Justified or Sound and are not consistent with National Policy for the following reasons:

- 150 new homes (and a further 60 at site 358) are disproportionate to the size the current village.
- The proposed allocation is within the Green Belt which is contrary to Government Policy.
- Previous landscape studies have indicated that the land has 'High sensitivity to housing development'. It has therefore always been considered not suitable and shouldn't change.
- Part of the site abuts a Local Wildlife Site. There has not been a sufficient assessment of the ecological impacts. The Anker Valley supports much diverse wildlife.
- 150 homes (and up to 210 homes) is too much for Wolvey's infrastructure in terms of pressure on: the primary school, travel to secondary school, GP practice, and the very limited public transport availability.
- The Council's own Sustainability Appraisal indicates that "Wolvey is a notably small main rural settlement with a low settlement score" and is therefore unsuitable for development of this scale.
- WCC have stated that the spread of homes to rural areas is unsustainable in terms of social care and education and would prefer settlements within or close to the urban areas.

Policy S1, Settlement Hierarchy, is Not Justified and unsound for the following reasons:

- Supporting evidence does not justify Wolvey being where it is in the hierarchy
- The Rugby Urban Area should accommodate the majority of new growth not the less well-served and remote rural areas.
- The 'Main Rural Settlements' definition is not sound as Wolvey is the smallest and least well-served of all the Rural Villages yet has the third highest housing allocation.
- Wolvey has limited employment, services, facilities, and public transport.
- Wolvey is a small remote village unable to accommodate the level of growth proposed.

- Wolvey should have no large developments and should be in a lower category in the hierarchy because of its limited services, facilities, employment and public transport.
- Wolvey is unable to accommodate the level of growth proposed as it is a small remote village. Therefore, it should be in a lower category in the hierarchy and have no large developments.

Policy S2, Strategy for Homes, is Not Justified and Unsound for the following reasons:

- Policy S2 is not sound because it is forming an unsustainable pattern of development in rural areas that is not 'justified' by the evidence.
- The Strategy for Homes has an overall preferred strategy of Urban Concentration. Policy S2 is I contradiction of this and proposes nearly 58% of new allocations (over and above those in previous Local Plans and already with permission) in the rural areas.

Policy S5 is not sound or justified and is not consistent with National Policy for the following reasons:

- The Draft Local Plan seeks to allocate around 1,500 new homes on land that is currently established Green Belt. This does not 'protect' Green Belt.
- There are development options outside of the Green Belt in more suitable locations that should be explored first.
- The Council's evidence is contrived and written to identify large areas of Green Belt as 'Grey belt' even though it is well established green belt. Previously these areas were established to safeguard the countryside from encroachment and should not be defined incorrectly

Land at Coventry Road Wolvey (Site 358), should not be allocated for housing for or the reasons below:

- 60 new homes at Site 358 and 150 new homes at Site 309 are of a disproportionate scale with the current village.
- The proposed allocation is within the Green Belt and this is contrary to Government Policy.
- 60 homes at Site 358 plus 150 homes at Site 309 is too much for Wolvey's current infrastructure in terms of limitations of primary school places, travel to secondary school, GP practice, employment, shops and the very limited public transport availability.
- The Council's own Sustainability Appraisal indicates that "Wolvey is a notably small main rural settlement with a low settlement score".

- Alternative sites should be considered in strategically preferable locations such as adjacent to the urban areas of Rugby and / or Coventry.

(Continue on a separate sheet /expand box if necessary)

Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

Policy CL1, Net Zero Buildings is Not Justified or sound and it is not consistent with National Policy.

- The Climate change section of the emerging Local Plan is not justified or sound because it is not consistent with the National Planning Policy Framework.
- Under Policy CL1 the Plan should address the 'location' of development to ensure that new housing seeks to maximise walking and cycling (the most sustainable modes of travel) alongside good access to public transport in accordance with the National Planning Policy Framework. Wolvey does not meet these criteria and car travel is essential for daily life.

The concept of Design Policies D1 to D5 are mostly sound as they seek to improve design quality. However, for the purpose of the Local Plan, Policy D1 to D5, Design Policies, are Not Justified or Sound Test for the following reasons:

- The scale of development proposed for Wolvey at sites 358 and 309 (a 60% increase in village size) would harm local character, rural setting and built form.
- The potential impacts of large-scale growth on the character of Wolvey needed to have been fully considered before sites were proposed as allocations.

Policy I4, Infrastructure and planning obligations, is Not Justified, Not Sound and is not consistent with National Policy for the following reasons:

- The available infrastructure cannot support the scale of development proposed for the village of Wolvey.
- There are insufficient primary school places to accommodate growth in the village.
- There are no secondary or special education needs school in Wolvey requiring long journeys to larger urban areas such as Rugby or Coventry.
- The GP practice is only open on limited days (and only for part of the day) requiring long journeys to other available practices.
- The local shop is not suitable for a weekly family shop requiring long journeys to urban areas such as Coventry.
- Public transport is poor
- There is no dentist, chemist or hospital requiring long journeys to urban areas such as Rugby or Coventry

There are no plans to increase facilities and it is unlikely that new developments would lead to increased facilities.

The proposals for Site 358, Coventry Road, Wolvey, are Not Justified, or Sound and are not consistent with National Policy for the following reasons:

- 60 new homes at Site 358 and 150 new homes at Site 309 are disproportionate to the size of the current village.
- The proposed allocation is within the Green Belt which is contrary to Government Policy.
- 60 new homes (and up to 210 homes when Site 309 is included) is too much for Wolvey's infrastructure in terms of pressure on: the primary school, travel to secondary school, GP practice, and the very limited public transport availability.
- The Council's own Sustainability Appraisal indicates that "Wolvey is a notably small main rural settlement with a low settlement score" and is therefore unsuitable for development of this scale.
- WCC have stated that the spread of homes to rural areas is unsustainable in terms of social care and education and would prefer settlements within or close to the urban areas.
