Local Plan Policy W1

I have been an avid stock car fan since i was born, Coventry stadium is an amazing venue for racing, i think it's an amazing asset for the local community to bring in outside revenue, and help develop the area, this a refurbished / new stadium for stockcar and speedway racing. i will be sure to travel over from the republic of ireland and stay in a local hotel when the 1st race meeting takes place in coventry stadium again hopefully in the near future

Regards Aaron Mcgrath
