Subject: Rugby local plan

Hi,

I would like to express my support for the latest local plan, particularly Policy W1B, regarding the restoration of Brandon Stadium for speedway and stock cars. I was a frequent visitor to the track prior to its closure, both as a spectator of Brisca F1 stock cars and as a racer in the banger formula. Since its closure we have lost Stoke and Birmingham to development, so the need for Brandon to return is greater than ever for the midlands stock car scene. I look forward to the day where I can once again race around Brandon. Please add my name in support of the local plan, particularly Policy W1B.

Kind regards,

Mike Parry
