**Subject:** Proposed Submission Consultation - Local Plan - Section W1B

I write to support Section W1B of Rugby Council Local Plan.

Which states:

"The council supports the restoration of Coventry Stadium Brandon for Speedway, Stock Car Racing and other Motor Sports together with other community uses.

Planning permission will not be granted for development proposals which would conflict with these objectives."

Please consider the Brandon site to be purchased either by the fans or compulsory purchased by the local council to allow motorsport to return.

Support and comments raised and submitted by residents, sports fans and government bodies should all be taken into account.

There is so much passion with the fans to repair and restore the stadium to a world famous international arena and get our sports back up and running as soon as possible.

Failure to return the stadium will curtail years of sporting history and enjoyment of motorsport for fans, local and from further afield.

My parents were speedway fans and apparently my first visit to Brandon was before I was born. I have been a regular speedway fan for 40+ years. I have many friends and met my husband because of speedway at Brandon and used to enjoy seeing many generations of families visit and enjoy this family friendly sport.

Thank you for your time.
