The land at North of Warwick Road, Wolston, should not be allocated for housing for reasons set out below:

- The following policies do not seem justified or consistent with National Policy EN7- Flood Risk- Policy EN7 is welcome as this aligns with national policy and seeks to reduce overall flood risk.**

The Storm Henk flood event in January 2024 saw 19 properties internally flooded and 11 properties externally flooded in the village. The subsequent S19 report acknowledged that a development site under construction at the time had not yet connected the surface water drainage system to the site wide attenuation basin therefore any flows originating on the site were not attenuated within the site boundary and therefore ran off site and down to the centre of the village.

EN2- Landscape protection- Allocations proposed in the emerging Local Plan do not

reflect the available evidence in terms of impacts on the landscape. Site 136- Land on Dyers Lane, Wolston. Previous evidence indicated that the site had 'High sensitivity to housing development' in landscape terms.

EN1-Biodiversity and Geodiversity protection- A proportionate ecological assessment should have been undertaken

I4- Infrastructure and planning obligations- The scale of development proposed for the village of Wolston is not capable of being supported by the available infrastructure.

Important areas of infrastructure that are lacking include:

- The primary school which is near capacity and cannot accommodate an additional influx of pupils.
