Subject: Plan policy W1B

I am emailing to document my support for the policy W1B in the proposed local plan.

My family have been going to the speedway at Brandon since it first opened, and the love of the sport has passed down through generations. My grandad is now elderly and would love to be able to return to the stadium, that he calls home, again. Coventry speedway & stox were a massive part of the local community, and provided the only local facility for motorsports.

With other tracks at least an hour away, alternative speedway teams are not accessible for my elderly grandad, or for me, as I work full time and could not get there in time.

With the countryside around our area being torn up for housing, it is essential to people's well-being to have public places to access and enjoy. For our community, this includes the speedway. With the loss of other tracks in the midlands, the return of Coventry would not only be important for us locally, but also for the survival of the sport in this country.

Please consider supporting and actioning the protection of Brandon stadium for motorsports, for all the different communities of people that it has served for so many years.

With kind regards,

Victoria Simmonds,
