Subject: Re: Local Plan Policy W1B - Coventry Stadium Brandon.

Categories: Green Category

Good afternoon

I am emailing in support of local policy W1B regarding the restoration of Coventry stadium at Brandon for speedway and stock car racing amongst other motor sports.

Not only does this stadium have historic significance in motor sport, Coventry speedway team were also known worldwide as having a rich history of success. They had also won league championships and trophies right up until their forceful closure by Brandon Estates.

I feel Sports stadiums in the UK must be protected and enjoyed for all spectators across the UK and the world. Stadiums don't just hold events for the public they also act as a community hub.

Brandon has hosted huge sell out international and domestic events in the past including Speedway Grand Prix and stock car Grand Prix.

The interest is still very much there in the speedway and stock car community to bring this historic stadium back to life and continue its legacy for many many years to come.

I have no doubt the restoration of this site will be a huge success and will put an end to the eyesore, and will have plenty of backing from local residents also with the restoration and return of motorsports to the venue.

Not only would a revival provide a huge shot in the arm to the motorsports it will also restore a world class venue back to its original purpose

My name is Brian Smee and my address is [REDACTED] United Kingdom

Thanks

Brian
