---

Good afternoon

I am emailing in support of local policy W1B regarding the restoration of Coventry stadium at Brandon for speedway and stock car racing amongst other motor sports.

Not only does this stadium have historic significance in motor sport, Coventry speedway team were also known worldwide as having a rich history of success.

Sports stadiums in the UK must be protected and enjoyed for all spectators across the uk. Stadiums don't just hold events for the public they also act as a community hub.

Not only has Brandon hosted huge sell out events in the past the interest is still very much there in the speedway and stock car community to bring this historic stadium back to life and continue its legacy for many many years to come.

I have no doubt the restoration of this site will be a huge success and will put an end to the eyesore, amongst other worries for the local residents.

Not only that it will provide a huge shot in the arm to have a venue like this thriving for speedway and stock cars.

My name and address is Craig Smeed [REDACTED]

Thanks
