Dear development strategy team

I would like to express my support for the proposed submission of the local plan under policy W1B I wish to express my desire for Brandon stadium to be protected for speedway and stock cars.

Our family have visited Coventry stadium for speedway for many years and it is a devastating loss to the local community as well the speedway family. Brandon is such a historic stadium which puts Coventry on the map.

Thank you for your time

Kind regards

Christine Vincent
