[REDACTED]
Rugby Borough Council Local Plan, Regulation 19 Consultation

Thank you for enabling Warwickshire County Council to give comments in respect of the Borough's Local Plan Regulation 19 consultation.

As asked, most of our comments will be given via the required Representation Form. However, we did not feel that this gave us an opportunity for more general comments or statements of support. I hope you will accept this letter as part of the County Council's formal submission.

Strategy

We note the reduction in the proposed plan length and subsequent reduction in housing numbers. We also note the increased number of proposed dwellings with Rugby Town Centre which reduces the need for significant growth in the villages. We believe this is better solution than that proposed within the Regulation 18 consultation.

We welcome the requirement for the proposed employment sites at Coton Park East and Walsgrave Hill to deliver small units for SME units as well as the ring-fencing of the northern expansion of Ansty Park for research and development uses.

We note the settlement hierarchy and strategies for housing and employment land.

The County Council supports the proposed allocated sites for Gypsies and Travellers. We feel these proposals offer a better solution than the earlier proposed site at Coton Park East close to the Rugby Free Primary School.

Comments have been compiled in respect of individual Housing and employment sites, and I would like to draw your attention to our concerns in respect of housing site 136. As the Minerals Authority we would object to housing in this location as the site sits within a Minerals Safeguarding Area and we believe development would prejudice the future working and restoration of the existing Wolston sand and gravel quarry.

We welcome the ongoing collaborative working in respect of growth at South West Rugby and the associated spine road network.

Climate

The County Council has no specific comments to make and is generally supportive of the policies as written.

Economy

The County Council has no specific comments to make and is generally supportive of the policies as written.

Centres

We have made comments in respect of all 4 of the proposed policies. We are generally supportive of the policies but have made a couple of suggestions for tweaks to wording to hopefully further strengthen the policies.

Particularly welcome are the policies to support retail development within Rugby town centre, the delivery of Local and District Centres as well as proposed Neighbourhood Hubs so that residents have access to shops and local services within walking distance wherever possible.

Environment

The County Council has no specific comments to make and is generally supportive of the policies as written.

Housing

Policies in respect of Housing Mix, Affordable Housing, Rural Worker Dwellings, Rural exception Sites, Replacement Dwellings and Houses in Multiple Occupancy are all clear and seem robust.

We are keen for the County Council and the Borough Council to continue to work together as appropriate in respect of the delivery of Specialist Housing. The County Council's Commissioners will be happy to support Borough Council Officers as proposals come forward throughout the life of the Plan.

Wellbeing

The County Council is fully supportive of the Policy on the Protection of Community Facilities.

We are also supportive of Policy W2 in respect of Open Space and Sports Provision. We believe this will help support residents to lead active and healthy lifestyles and reduce the burden on Health services.

Design

We support the overarching policies and recognise the need for Local Design Codes to reflect differences across the Borough.

We have provided some detailed comments in respect of policy D4, Historic Landscape where we hope you will see the wording we have proposed as a positive suggestion to strengthen the policy.

In respect of Sustainable Drainage, we recognise that the Borough will continue to work with the County Council in its capacity as Lead Local Flood Authority.

Infrastructure

The delivery of required infrastructure is a crucial element of ensuring sustainable growth.

We have made detailed comments in respect of transport, parking standards as well as new rail stations.

In respect of Communications Infrastructure, we suggest that Borough Council Officers may like to contact the County's Connected Warwickshire Team. The Team has regular communications with major service providers as well as network host providers.

The County Council will continue to seek financial and in-kind contributions in respect of its services. Requests will be made where we believe we are able to show compliance with Community Infrastructure Levy Regulation 122 and will be supported through planning conditions, S106 agreements and S278 agreements. We are particularly supportive of point B within policy I4, i.e. the reference to retrospective planning obligations. This will be necessary across the life of the Plan.

I would like to thank the Officers at the Borough Council for the proactive approach they have taken in working with teams at the County Council. We will continue to support wherever possible.

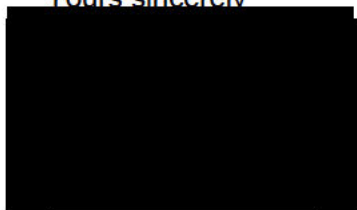

We have only included a request to speak at the Examination Hearings in respect of site 136 and our concerns in respect of Minerals Safeguarding. Clearly if this site is removed, the need to attend the hearings in our own right will fall away.

As with the last Local Plan, County Council staff will be happy to support the Borough Council at the Local Plan Examination Hearings if needed once we know what the Inspector wishes to discuss further following consideration of the submitted plan.

This letter and the Representation Forms have been through our Governance process, both securing formal approval from the Portfolio Holder for Planning and Transport on Friday 13th March 2026.

I hope this letter is helpful but if you have any questions or require clarification on anything, please let me know.

Yours sincerely

Mark Ryder
Executive Director for Communities

Name of the Local Plan to which this representation relates:

Rugby Borough Council Proposed Submission
Local Plan

Please return to Rugby Borough Council by 5:00pm Friday 13th March 2026

By email to: localplan@rugby.gov.uk with **Proposed Submission Consultation in the subject line, OR by post to:** Development Strategy, Town Hall, Evreux Way, Rugby, CV21 2RR.

This form has two parts –

Part A – Personal Details: need only be completed once.

Part B – Your representation(s). Please fill in a separate sheet for each representation you wish to make.

Part A

1. Personal Details*

**If an agent is appointed, please complete only the Title, Name and Organisation boxes below (if applicable) but complete the full contact details of the agent in 2.*

2. Agent's Details (if applicable)

Part B – Please use a separate sheet for each policy or site you wish to comment on

Name or Organisation:

3. To which part of the Local Plan does this representation relate?

Local Plan Paragraph		Local Plan Policy	I Infrastructure	Policies Map	
Site ID					

4. Do you consider the Local Plan:

(1) is Legally compliant	Yes		No	
(2) is Sound	Yes		No	
(3) complies with the Duty to co-operate	Yes		No	X

5. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

There have been conversations between the County Council and the Borough Council in respect of waste disposal and recycling.

However, we are disappointed to see that the requirement for a new household waste recycling centre and waste transfer station isn't mentioned. This new provision might offer an opportunity for other council services be co located such as the Borough Council's waste collection fleet.

(Continue on a separate sheet /expand box if necessary)

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Although we did not expect a site to be identified we were expecting words that establish the need and that would help us identify a site in the future to bring forward for development.

We request that a section is added to the Infrastructure section of the Local Plan prior to submission for examination.

(Continue on a separate sheet /expand box if necessary)

Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

☐

No, I do not wish to participate in hearing session(s)

☒

YES, I wish to participate in hearing session(s)

Please note that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

Although I have indicated that the County Council would like to participate in an Examination Session, WCC hopes that Rugby Borough Council will be able to add a brief section about Waste Disposal and Recycling meaning that there is no need for us to raise this as Examination.

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.

9. If you have used AI to produce or substantially alter your representation, please declare which tool you have used, how it was used, and what checks you have undertaken to ensure the AI-produced material is accurate.

Not applicable. AI has not been used.

Warwickshire County Council supports the retention of the sequential test (which directs main town centre uses to defined centres in the first instance) and the locally set threshold of 500m2 for impact tests in proposed Policy C2 as this will help to support the vitality and viability of centres within the Borough, particularly Rugby town centre, which has experienced significant challenges in recent years (evidenced in the Rugby Retail and Town Centre Uses Study (2024)).

We also support the proposed retail hierarchy for the Borough.

Warwickshire County Council generally supports proposed Policy C1 Rugby town centre which sets out the development priorities and placemaking principles for the town centre, subject to our consideration of the Town Centre Delivery Plan referenced in the policy, which we understand is yet to be published.

However, we recommend Para. B.i. is amended as follows (additional text highlighted**) to continue to support retail development within the primary town centre and prevent further erosion of the town centre offer, as recommended in the Rugby Retail and Town Centre Uses Study (2024):**

"B. Development in Rugby town centre shall accord with the following placemaking principles:

i. support the town centre's role as a **retail, leisure and entertainment destination including a wide-ranging food and beverage offering;"**

We welcome the inclusion of the diagram on p.33 which highlights the proposed key regeneration interventions and town centre/edge of centre residential allocations, including a broad location for an 'apartment living quarter' around Rugby Station.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the

duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

We note the proposal to downgrade traffic on North Street, Evreux Way and Church Street. However, progression of any future highway changes will need to be informed by further technical assessments to evaluate options.

Warwickshire County Council suggested replacing the existing point C with the following –

C. Applications with the potential to affect the significance of a heritage asset, including the contribution made by its setting, must provide sufficient information and assessment (such as desk-based appraisals, field evaluation, and heritage impact assessments) to allow the nature, extent, and significance of any potential heritage assets and their setting to be understood and to enable a sufficient level of understanding of the proposal's likely impacts.

We believe this makes the point more clearly that we need to be able to understand the nature and significance of any potential heritage assets before we

are able to understand the possible impacts from the development. The draft version seems to put this the other way round and suggest that a site is assessed to understand the impacts from the development.

Ther County Council would also like to add an additional point, point D as shown below

D. There will be a presumption in favour of the preservation of locally and regionally important archaeological sites. Development that would result in harm to archaeological remains will only be supported where the applicant can demonstrate that the public benefits of the proposal clearly outweigh that harm. Where planning permission is granted for development that will have an adverse effect on archaeological remains, the Council will require the applicant to secure a programme of recording and analysis of that asset and archaeological excavation where relevant and ensure the publication of that record to an appropriate standard.

This makes it clear that there may be instances that where important archaeological remains could potentially form a reason for refusal and that in those cases where known archaeological remains will be lost there will be an expectation that that loss will be "mitigated" most typically by means of a programme of excavation, recording and publication of the results.

Parking standards - cycle parking

- To avoid ambiguity, references within Appendix 2 should use the term 'cycle spaces' rather than 'cycle stands' as the current mix of terminology may lead to confusion.
- It is recommended that the minimum cycle parking standards in Appendix B are set at levels that are at least equivalent to those in Local Transport Note 1/20, Cycle Infrastructure Design. While the draft standards are broadly aligned, some discrepancies are apparent, and these may stem from incorrect quotation of LTN 1/20 guidance for long and short stay cycle parking.
- In line with Table 11-1 of LTN1/20, Appendix B should also explicitly state that cycle parking for adapted cycles for disabled people should be provided in all land uses, that provision should equate to 5% of total cycle parking capacity

both long and short stay facilities, and that these spaces should be co-located with disabled car parking.

Parking standards - High Access Zone

Some land uses within the defined High Access Zone are subject to reduced car-parking requirements. While the principle of reducing car dependency through parking policy in areas with higher accessibility is supported, it is essential that realistic and attractive sustainable travel options are available for journeys to and from key destinations within the zone such as the town centre, employment sites, and the railway station. Without this, lower parking standards particularly for residential development risk exacerbating already high levels of on-street parking. The basis for determining the boundary of the High Access Zone is unclear, however it is noted that some trips within the zone, particularly to the railway station, significantly exceed the typical 1-mile / 20-minute walking threshold which is commonly used to define reasonable walking access, and do not offer direct bus services. It may therefore be more appropriate to consider parking requirements within the zone on a case-by-case basis rather than accepting lower provision as standard.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

☒ **No**, I do not wish to participate in hearing session(s)

☐ **Yes**, I wish to participate in hearing session(s)

Please note that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

Not applicable

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.

9. If you have used AI to produce or substantially alter your representation, please declare which tool you have used, how it was used, and what checks you have undertaken to ensure the AI-produced material is accurate.

Not applicable. AI has not been used.

Part B – Please use a separate sheet for each policy or site you wish to comment on

Name or Organisation:

3. To which part of the Local Plan does this representation relate?

Local Plan Paragraph		Local Plan Policy		Policies Map	
Site ID	316 253 172				

4. Do you consider the Local Plan:

(1) is Legally compliant	Yes		No	
(2) is Sound	Yes		No	
(3) complies with the Duty to co-operate	Yes		No	

5. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

Feedback on active travel requirements was submitted at an earlier stage of the plan making process. It is noted however, that additional site allocations are now proposed to the south of the A428 Rugby Road at Long Lawford that have not previously been subject to comment. It will be essential that these sites incorporate high-quality walking, wheeling and cycling infrastructure and that they provide safe connections to existing and planned routes along the A428 Coventry Road / Rugby Road / Lawford Road corridor.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Contributions may also be required to upgrade current active travel routes to improve connectivity between the new sites, the town centre and other key destinations. There is also strong existing demand from Long Lawford residents for a safe and direct walking and cycling route between the village and schools in Bilton via the Bilton Lane corridor. Consideration should therefore be given to how the proposed sites south of the A428, particularly site 253 (Lawford Fields Farm), could help deliver this important link.

Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

☒ **No**, I do not wish to participate in hearing session(s)

☐ **Yes**, I wish to participate in hearing session(s)

Please note that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

Not applicable

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.

9. If you have used AI to produce or substantially alter your representation, please declare which tool you have used, how it was used, and what checks you have undertaken to ensure the AI-produced material is accurate.

Not applicable. AI has not been used.

(2) is Sound	Yes		No	
(3) complies with the Duty to co-operate	Yes		No	

5. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

No objections on mineral sterilisation grounds subject to prior extraction and to Minerals Assessment Report, materials management plan and soil management plan

Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

☒ **No**, I do not wish to participate in hearing session(s)

☐ **Yes**, I wish to participate in hearing session(s)

Please note that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

Not applicable

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.

9. If you have used AI to produce or substantially alter your representation, please declare which tool you have used, how it was used, and what checks you have undertaken to ensure the AI-produced material is accurate.

Providing the parking does not in itself determine whether residents will choose to use a car – this is dependent on the availability of safe, direct and convenient alternatives. Reducing parking provision does not reduce car ownership; this evidenced by the outcomes of previous guidance documents such as PPG13/maximum parking standards, which contributed to many of the on-street parking pressures now seen on the network

(2) is Sound	Yes		No	
(3) complies with the Duty to co-operate	Yes		No	

5. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Further clarification is required on where car clubs have been successfully secured and operated. WCC are not aware of any examples in Warwickshire. Evidence of where they have been implemented elsewhere, how successful they have been, and how they are managed in perpetuity would assist in understanding their applicability. and there is the question of where in the country these have been used, how successful are they and how are they managed in perpetuity?

Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

☒ **No**, I do not wish to participate in hearing session(s)

☐ **Yes**, I wish to participate in hearing session(s)

Please note that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

Not applicable

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.

A general observation: infrastructure such as kiosks, cabinets, monopoles and telecom hubs must be carefully sited to avoid impacts on the public highway. This includes ensuring they do not:

- Obstruct or narrow footways, cycleways or wheeling routes,**
- Interfere with visibility at junctions or crossings,**
- Obstruct existing highway infrastructure (e.g. bus stops, signal heads, tactile paving zones).**

There is a typing mistake in the spelling of meter in the second paragraph. Meter – refers to a parking meter; the unit of measurement should be spelled 'metre'.

Car Parking

It is unclear how the high and low accessibility areas have been derived. Further explanation is required on;

- **The methodology used,**
- **Whether accessibility has been assessed across all key modes (walking, cycling, bus, rail),**
- **Why the high accessibility zone ends immediately north of Rugby Station,**
- **The evidence base underpinning the parking standards.**

Additional commentary:

It may be beneficial to review and update these zones to reflect actual, outturn accessibility which could help justify enhancements to active travel and public transport infrastructure.

If these zones reflect a return to maximum parking standards, it should be noted that these were ineffective previously (e.g. post-2000 white Paper and PPG13).

Reduced parking does not inherently increase sustainable mode use; however, it can adversely impact residential amenity and highway safety where displaced parking occurs and Traffic Regulation order are not feasible.

A caveat may be needed to reflect that residents will expect parking based on bedrooms/occupancy regardless of designation, and that in low accessibility areas, provision for sustainable modes should be clearly evidenced rather than assumed based solely on proximity to the town centre.

Electric vehicle charging (Page 75)

Reference should also be made to the WCC Guidance on EV Charging Infrastructure. For new development, charging should not be considered an acceptable option at the roadside should not be option.

Suggested amendment;

"Electric vehicle charging points shall be provided in accordance with Building Regulations (Part S, 2022).

Parking Standards – High Access Zone Map (Page 76)

See comments above re; car parking

Use Class Table (Page 77)

- **B2-General Industrial and B8 Storage and Distribution**

Car Parking - no low accessibility. How does this work if the accessibility is low? This is reduced parking and could have an impact on adjacent network. Justification for this not provided and developers will contest this is acceptable as it meets LPA standards. Cycle parking – reference to Stand; should this not be space? No justification for halving the previous recommended parking provision

- **Residential Institutions**

Residential care homes - are they the high dependency patients - cycle parking makes no sense; what is 0.05 of a cycle space? What is difference between per bedroom/staff and per residential unit visitors?

Homes for adults and children with learning or physical disabilities – see above

- **C3- Dwellings**

1-2 bed dwelling – how does the 1.5 spaces work for low access? Has any data been collected to verify this? Particular concerns with the proposed 0.75 spaces per dwelling. As previously commented, reducing parking provision does not reduce vehicle ownership. 3 & 4+ dwellings – the high access provision remains concerning for the reasons set out above. With children staying at home longer these days, this puts further pressure on dwellings with a reduced parking standard.

Garages - these need to be longer/wider if they are to be providing parking for cycles (see SDC & WDC parking SPDs).

- **Dwelling apartments/flats/maisonettes**

Same comments apply as with dwellings where 0.5/0.75/1.5 spaces have been used – these will not reduce car ownership and only good, regular, direct accessible and safe alternative will see a shift to sustainable modes.

- **Dwellings for Elderly Persons**

Active elderly – these can still have high car ownership levels and although may be 1 per dwelling this will not address the 0.5 high access standard for high access areas.

Cycle parking levels are again questioned (0.05 space?)

Sheltered housing with resident warden – how has the car parking been derived? Have surveys been undertaken? Same comments apply as with residential institutions with regards to cycle parking – this does not make sense; what is 0.05 of a cycle space?

- **HMOs – Houses of Multiple Occupation**

Do not agree with cycle parking for low accessibility - this should be same as high access. Notes - cycle parking should always be provided on site.

- **Commercial, business and services (Class E)**

(a) Non food and general retail and,

(1) Food retail - how has the cycle parking been derived – it is unclear what the basis for this is as the cycle parking appears to be reduced.

- **Use Class F1**

(1) Provision of education (schools, colleges, etc) – Concerns with the level of cycle provision; this seems to be low for students.

(2) Public worship or religious instruction. – Cycle parking; why has long and short stay parking been reduced? What has changed to reduce this?

- **Use Class F2**

(2) Halls or meeting places – Car parking; how has this been determined as the previous use class cannot be found?

Cinemas, theatres, concert halls, bingo halls – Cycle parking; why has this been reduced? In trying to encourage active travel and sustainable modes, it is unclear why cycle parking for a number of use classes has been reduced, whether long or short stay?

(Page 86)

Parking for people with disabilities – consider whether this terminology should be updated for consistency with current best practice, for example using 'people with mobility or visual impairments'. This would align the wording with contemporary accessibility language and ensure clarity about the types of needs the standards are intended to address.

In the associated table, the category 'other uses' is not clear. Greater specificity would assist applications and decision makers in interpreting the requirements and determining the appropriate level of provision.

(Page 87)

The reference to 'pathways' is unclear as to whether this relates solely to pedestrian routes within car parks or to site-wide pedestrian movement more generally. Where paths serve as shared routes – particularly those providing access to cycle storage – they should meet appropriate widths. A minimum of 3.0 metres or the standards set out in LTN 1/20 (Cycle Infrastructure Design) should be applied. WCC Active Travel should advise further on specific dimensional requirements and best practice.

General comments

Cycle parking terminology; the document uses both 'stands' and 'spaces' which risks inconsistency. Provision should ideally be defined in terms of 'cycle spaces' with the design details (e.g. use of Sheffield stands accommodating two cycles per stand) demonstrated through the planning application. This approach ensures that developers provide clear evidence of how minimum space requirements will be met in practice.

It would be beneficial for the Plan include or cross-reference detailed guidance on cycle parking types, dimension, spacing and layout. Relevant sources include:

- LTN 1/20 Cycle Infrastructure Design
- Manual for Streets

These references would help secure high-quality, usable and accessible cycle parking as part of development proposals.

Part B – Please use a separate sheet for each policy or site you wish to comment on

Name or Organisation:

3. To which part of the Local Plan does this representation relate?

Local Plan Paragraph		Local Plan Policy		Policies Map	
Site ID	14				

4. Do you consider the Local Plan:

(1) is Legally compliant	Yes		No	
(2) is Sound	Yes		No	
(3) complies with the Duty to co-operate	Yes		No	

5. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

It is assumed that the reference to vehicular access through Ansty Park reflects the advice of the Highway Authority in respect of this being taken from the west and the trunk road network (M6, M69 and A46) as for existing Ansty Business Park developments and not via Combe Fields Road which is a distributor road of limited width and with no facilities for pedestrians and cyclists.

Planning obligations would be sought in respect of accessibility by public transport to significantly enhance accessibility by public transport to achieve sustainable development in line with the requirements outlined in the updated NPPF (December 2024)

A Travel Plan will be required to encourage use of sustainable modes of transport. It is suggested that the Travel Plan is integrated with others already in operation on the Ansty Business Park

Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

☒ **No**, I do not wish to participate in hearing session(s)

☐ **Yes**, I wish to participate in hearing session(s)

Please note that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

In addition to the 'Development requirements' comments, there are concerns that the roundabout proposed as part of the current planning application may not be sufficient to accommodate the Local Plan development if the sites proposed are all allocated. Should further infrastructure improvements be required as part of other Local Plan sites, then this requirement will need to be reflected in the IDS for those sites. It is understood that this has been raised with the RBC Case Officer for the planning application but need to ensure that policy and planning discuss this matter.

There is currently no reference to the provision of Home to School transport to support the delivery of new homes in locations where pupils will need to travel to school.

There should be reference to prioritisation of safe walking routes being delivered where this could reduce to need for home to school transport by reducing the number of instances where there are no safe active travel routes to schools.

I recognise this is specifically mentioned in respect of site 253 but this should be a factor across all sites.

The consultation statement shows strong policy intent around accessibility (H7) and older persons' housing (H6) which we welcome. We would also like to work closely with RBC to strengthen the offer for specialist housing for working aged adults with disabilities and mental health needs (eligibility individuals assessed as needing care and support under the Care Act 2014 and/or Mental Health Act 1983 including amendments from the Mental Health Act 2025 which remains the primary legislation until replaced or amended) . WCC are working on a housing needs assessment for working aged adults 16- 64 with disabilities to better understand and forecasted demand for supported living, complex needs units, sensory-friendly housing, or autism-appropriate accommodation and we would like to work in partnership with RBC on this.
